Biogas Industry Experts

Stainless Steel Fabrications

Client: JAEREN BIOGAS AS
Location: Norway

Project scope:

To supply a gas holder to an existing anaerobic digester site.

Design Requirement:

A half sphere PVC double membrane gas holder with a capacity of 100m³ operating at a pressure of 10mbar.

Products / Services supplied:

The membrane gas holder was designed, manufactured and delivered to site. One of our Site Supervisors attended site and with assistance from the Client installed and commissioned the gas holder.

Outcome:

The gas holder enhanced the operation of the existing anaerobic digester providing storage and a constant system volume.
