

Biogas Products

Biogas Industry Experts  Stainless Steel Fabrications

Client: Evergreen Gas / AD4Energy
Location: Various sites

Project Scope

To supply a half sphere gas holder on new far anaerobic digester installations

Design Requirement

A half sphere PVC double membrane gas holder with a capacities of 100, 150, 200 and 250m³ and operating pressures between 5mbar and 10mbar.

Products/services

The membrane gas holder complete with duty air blower, viewing windows, gas holder level sensor, and an air pressure control valve was delivered, installed and commissioned by our own site installation team.

Outcome

The gas holder provided storage and a constant gas operating pressure in all conditions
